

Endorsement and Maintenance of Performance Measures 2016-2017 Projects

	Endorsement and Maintenance Project	Nomination Close Date	Measure Submission Deadline	Brief Project Description
1.	All-Cause Admissions and Readmissions Phase 3	11/9/2016	12/2/2016	This project will review newly-submitted readmission measures for condition-specific readmission measures, as well as measures of acute care hospitalization from the home health and dialysis settings.
2.	Behavioral Health Phase 4	11/9/2016	12/2/2016	This project is a continuation of prior work in this domain and seeks to endorse measures for improving the delivery of behavioral health services and achieving better outcomes in the areas of mental illness and substance abuse, attention deficit/hyperactivity disorder (ADHD), and depression.
3.	Care Coordination (Phase 4)	11/3/2016	11/28/2016	This project will review performance measures in the care coordination domain including endorsed maintenance measures and newly-submitted measures focused on health IT, transitions of care and structural measures.
4.	Cost and Resource Use (Phase 4 and 5)	11/16/2016	N/A (Not accepting new submissions)	This project will review performance measures focused on cost and resource use for all conditions. Specific conditions addressed in this topic area include pulmonary and cardiovascular conditions, diabetes as well as measures related to care coordination and population health. Given the number of maintenance measures for review, this project will not be accepting any newly-submitted measures.
5.	Infectious Disease	11/10/2016	12/5/2016	This project will build on previous topics and conditions including HIV/AIDS, hepatitis, respiratory infections, infections of various organ systems, sexually transmitted infections, opportunistic and atypical infections and sepsis and septic shock.

**All projects will end by September 26, 2017.*
