

Options for Interactive Data Presentation

- Customize your dashboard to present FAIR Health data alone, or juxtapose it against your own data or an external data source, such as Medicare fees.
- Truly interactive, our dashboards enable you to:
 - Apply a variety of filters to isolate data elements;
 - Use any combination of filters to refine your analyses; and
 - Highlight underlying values by positioning your mouse.

Pre-Designed, Ready-to-Use FH Dashboards

In addition to custom-designed dashboards, we also offer ready-to-use FH Dashboards on:

- Specialty Rx;
- Durable medical equipment (DME);
- Dental services;
- Emergency room evaluation and management (E&M);
- Place of service.

Easy-to-Install, Easy-to-Use

Your FH Dashboards license includes:

- Dashboards customized to your data and analytic needs;
- Seamless delivery of a downloadable file that will run on any system;
- A step-by-step user guide offering plug-and-play guidance; and
- Access to our responsive service team by phone or e-mail for technical assistance.

Seeing Is Believing: Request a Free Demo

To find out more about FH Dashboards and other analytic tools, or to arrange for a demo of our FH Dashboards in action, e-mail us at info@fairhealth.org or call us at 855-301-FAIR (3247).

FAIR Health Data:
Reliable,
Independent and
Comprehensive

FAIR Health is a national nonprofit organization whose mission is to bring transparency to healthcare costs and health insurance information through comprehensive data products, consumer resources and support for health systems research, all powered by the nation's largest collection of private health insurance claims data. FAIR Health is not affiliated with any governmental agency, insurer or other organization in the healthcare sector.

FH Dashboards

FAIR Health's interactive data dashboards allow you to:

- Toggle between screen offerings
- Drill down to reveal new insights
- Isolate data elements that mean most to your analyses
- Highlight your findings

Complete the Picture – Illuminate Your Insights

FAIR Health recognizes that each organization has unique uses and objectives for claims data. FH® Dashboards bring your customized FAIR Health dataset to life through easy-to-use visualizations and analytic tools—providing clear and understandable graphic illustrations of complex concepts. This one-stop solution helps you conduct your analyses simply and effectively and also serves as a presentation tool to inform strategic planning and management reports.

Point-and-Click Desktop Access to Key Data Points

With a click of your mouse, you can view and compare cost and utilization data based on:

- Provider's specialty;
- Geographic location—at the state, region or geozip level;
- Patient age and gender;
- Trending over time; and
- Procedure, diagnosis code and category.
