

**October 4, 2022**

**To:** All-Cause Admissions and Readmissions Standing Committee, Spring 2022

**From:** NQF staff

**Re:** Cancellation of post-comment web meeting

## **Background**

Following the All-Cause Admissions and Readmissions Standing Committee's measure evaluation meeting on June, 24, 2022, NQF received no comments from NQF-member organizations pertaining to the draft report and the measures under review for the spring 2022 cycle. Therefore, NQF, along with the Standing Committee co-chairs, decided to cancel the post-comment web meeting scheduled for October 4, 2022.

For the spring 2022 cycle of the All-Cause Admissions and Readmissions project, the Standing Committee evaluated two measures undergoing maintenance review against NQF's measure evaluation criteria. The Standing Committee recommended two measures for endorsement.

- NQF #2375 PointRight® Pro 30™ (American Health Care Association [AHCA]/PointRight, Inc)
- NQF #2827 PointRight® Pro Long Stay™ (AHCA/PointRight, Inc.)

## **Comments Received**

NQF accepts comments on endorsed measures on an ongoing basis through the [Quality Positioning System \(QPS\)](#). In addition, NQF solicits comments for a continuous 16-week period during each evaluation cycle via an online tool located on the project webpage. For this evaluation cycle, the commenting period opened on May 10, 2022 and closed on September 6, 2022. Comments received by June 7, 2022 were shared with the Standing Committee prior to the measure evaluation meetings. NQF did not receive any post-evaluation comments on the Standing Committee's recommendations. Since no comments were received, NQF, along with the Standing Committee co-chairs, decided to cancel the post-comment web meeting scheduled for October 4, 2022.

NQF members also had the opportunity to express their support ("support" or "do not support") for each measure submitted for endorsement consideration. No NQF members provided their expressions of support/nonsupport ([Appendix A](#)).

NQF staff have included all comments that were received (both pre- and post-evaluation) in this memo in [Appendix B](#). The appendix contains the commenter's name, comment, associated measure, and responses (including measure steward/developer responses if appropriate).

## **Appendix A: NQF Member Expression of Support Results**

No NQF members provided their expressions of support/nonsupport.

## **Appendix B: Comment Brief**

No comments were received.
