

Care Coordination Maintenance Measures

Measure Number	Title	Description	Measure Steward
0097	Medication Reconciliation	Percentage of patients aged 65 years and older discharged from any inpatient facility (e.g. hospital, skilled nursing facility, or rehabilitation facility) and seen within 60 days following discharge in the office by the physician providing on-going care who had a reconciliation of the discharge medications with the current medication list in the medical record documented	National Committee for Quality Assurance
0171	Acute care hospitalization (risk-adjusted)	Percentage of home health stays in which patients were admitted to an acute care hospital during the 60 days following the start of the home health stay	Centers for Medicare & Medicaid Services
0173	Emergency Department Use without Hospitalization	Percentage of home health stays in which patients used the emergency department but were not admitted to the hospital during the 60 days following the start of the home health stay	Centers for Medicare & Medicaid Services
0326	Advance Care Plan	Percentage of patients aged 65 years and older who have an advance care plan or surrogate decision maker documented in the medical record or documentation in the medical record that an advance care plan was discussed but the patient did not wish or was not able to name a surrogate decision maker or provide an advance care plan	National Committee for Quality Assurance
0494	Medical Home System Survey	Percentage of practices functioning as a patient centered medical home by providing ongoing, coordinated patient care	National Committee for Quality Assurance
0511	Correlation With Existing Imaging Studies for All Patients Undergoing Bone Scintigraphy	Percentage of final reports for all patients, regardless of age, undergoing bone scintigraphy that include physician documentation of correlation with existing relevant imaging studies (eg, x-ray, MRI, CT) that were performed	American Medical Association - Physician Consortium for Performance Improvement
0520	Drug Education on All Medications Provided to Patient/Caregiver During Short Term Episodes of Care	Percentage of short term home health episodes of care during which patient/caregiver was instructed on how to monitor the effectiveness of drug therapy, how to recognize potential adverse effects, and how and when to report problems.	Centers for Medicare & Medicaid Services
0526	Timely Initiation of Care	Percentage of home health episodes of care in which the start or resumption of care date was either on the physician-specified date or within 2 days of the referral date or inpatient discharge date, whichever is later.	Centers for Medicare & Medicaid Services

Care Coordination Maintenance Measures

Measure Number	Title	Description	Measure Steward
0553	Care for Older Adults – Medication Review	Percentage of adults 66 years and older who had a medication review; a review of all a member’s medications, including prescription medications, over-the-counter (OTC) medications and herbal or supplemental therapies by a prescribing practitioner or clinical pharmacist	National Committee for Quality Assurance
0554	Medication Reconciliation Post-Discharge	The percentage of discharges from January 1–December 1 of the measurement year for members 66 years of age and older for whom medications were reconciled on or within 30 days of discharge	National Committee for Quality Assurance
0645	Biopsy Follow-up	Percentage of patients who are undergoing a biopsy whose biopsy results have been reviewed by the biopsying physician and communicated to the primary care/referring physician and the patient	American Academy of Dermatology
0646	Reconciled Medication List Received by Discharged Patients (Inpatient Discharges to Home/Self Care or Any Other Site of Care)	Percentage of patients, regardless of age, discharged from an inpatient facility to home or any other site of care, or their caregiver(s), who received a reconciled medication list at the time of discharge including, at a minimum, medications in the specified categories	American Medical Association - Physician Consortium for Performance Improvement
0647	Transition Record with Specified Elements Received by Discharged Patients (Inpatient Discharges to Home/Self Care or Any Other Site of Care)	Percentage of patients, regardless of age, discharged from an inpatient facility to home or any other site of care, or their caregiver(s), who received a transition record (and with whom a review of all included information was documented) at the time of discharge including, at a minimum, all of the specified elements	American Medical Association - Physician Consortium for Performance Improvement
0648	Timely Transmission of Transition Record (Inpatient Discharges to Home/Self Care or Any Other Site of Care)	Percentage of patients, regardless of age, discharged from an inpatient facility to home or any other site of care for whom a transition record was transmitted to the facility or primary physician or other health care professional designated for follow-up care within 24 hours of discharge	American Medical Association - Physician Consortium for Performance Improvement
0649	Transition Record with Specified Elements Received by Discharged Patients (Emergency Department Discharges to Ambulatory Care [Home/Self Care] or Home Health Care)	Percentage of patients, regardless of age, discharged from an emergency department (ED) to ambulatory care or home health care, or their caregiver(s), who received a transition record at the time of ED discharge including, at a minimum, all of the specified elements	American Medical Association - Physician Consortium for Performance Improvement
