improvements together

Proposed Roster

Common Formats for Patient Safety Data, Fall 2019

NQF is seeking to fill expertise gaps in surgical care and practice, including complications and patient safety events associated with surgery, and in diagnostic safety and quality, including event reporting and surveillance focused on understanding and improving diagnosis on the Common Formats Expert Panel. Please contact the project team at commonformats@qualityforum.org to submit a nomination. Thank you for your interest.

Panel Members

Charisse Cassell, BSN, MPH

Director, Quality and Performance Improvement, Cedars-Sinai Medical Care Foundation
Los Angeles, California

Charisse Cassell is an RN with more than 15 years of experience in operations, management, and leadership in quality and patient safety. She is currently the Director of Quality and Performance Improvement at Cedars-Sinai Medical Network. One of her primary roles involves tracking and trending patient safety event and near-miss reporting in over 90 ambulatory medical offices. Ms. Cassell has a bachelor's degree in nursing from California State University, Los Angeles and a master's degree in public health from University of California, Los Angeles.

Common Formats for Patient Safety Data Proposed Roster

The final approval of this roster is contingent upon the proposed roster commenting period: 12/17/2019 to 1/3/2020. Comments should be submitted via email to commonformats@qualityforum.org.
