

Cost and Efficiency Standing Committee: Fall 2018 Cycle

COMMITTEE CHAIRS

Brent Asplin, MD, MPH Independent Cincinnati, Ohio

Brent Asplin is an emergency physician and healthcare executive who is focused on building a sustainably affordable health system that is consumer friendly and value driven. Most recently, Dr. Asplin served as the Chief Clinical Officer for Mercy Health, a \$4.5 billion system that operates 23 hospitals in Ohio and Kentucky. He provided system-wide strategic leadership for Mercy's physician network and clinical imperatives. His areas of focus were physician integration, clinically integrated networks, population health management, and Mercy's quality and clinical transformation function. Dr. Asplin came to Mercy Health from Fairview Health Services, a \$3.3 billion, eight-hospital system in Minneapolis, where he was the organization's President and Chief Clinical Officer and President of Fairview Medical Group, a multispecialty group with more than 550 physicians. Before joining Fairview in 2011, he was Chair of the Department of Emergency Medicine at the Mayo Clinic. Dr. Asplin's career also includes serving as a clinical leader with Regions Hospital and HealthPartners in St. Paul and serving on the Committee on the Future of Emergency Care in the U.S. Health System with the Institute of Medicine in Washington, DC.

Cheryl Damberg, PhD

Principal Senior Researcher, RAND Distinguished Chair in Healthcare Payment Policy Santa Monica, California

Cheryl Damberg is the Distinguished Chair in Health Care Payment Policy and Principal Senior Researcher at the RAND Corporation. Dr. Damberg's body of research explores the impact of various strategies being deployed to drive cost and quality improvements in the U.S. health system. Her work also explores how providers are working to redesign of healthcare delivery in response to new payment models and increased accountability for performance. As a national leader in the areas of value-based purchasing and application of performance measures, she has examined the effects of payment reforms on quality and costs, identified strategies to minimize unintended consequences associated with value-based payment schemes, and worked to apply social risk factor adjustments to improve the validity of measures used to compare provider performance and determine incentive payments. Dr. Damberg testified twice before Congress regarding how to include pay for performance into revisions to Medicare physician payments which informed the development of MACRA. Currently, she serves as the Principal Investigator of the RAND Center of Excellence on Health System Performance, under a five-year \$17.5 million grant from the Agency for Healthcare Research and Quality. The Center is focused on characterizing and studying health systems, and identifying the attributes of health systems associated with high performance and mechanisms that systems use to promote the uptake of evidence-based care practices. She also leads a research team that is working with the Center for Medicare and Medicaid Services to generate the annual Medicare Advantage Star Ratings and to conduct analyses to strengthen the Medicare STAR rating program. Dr. Damberg's prior professional experience includes serving as the Director of Quality and Research for the Pacific Business Group on Health, as a Senior Consultant to Fortune 100 firms for the MEDSTAT Group, and as a Research Fellow for the U.S. Department of Health and Human Services Office of Disease Prevention and Health Promotion. She holds a PhD in public policy from the Pardee RAND Graduate School and a Master of Public Health from the University of Michigan.

COMMITTEE MEMBERS

Kristine Martin Anderson, MBA

Executive Vice President, Booz Allen Hamilton Rockville, Maryland

Kristine Martin Anderson is an Executive Vice President at Booz Allen Hamilton, where she leads the Civilian Services business. In that role, Ms. Anderson and her team aim to address some of the most complex challenges faced by civil government, including healthcare, homeland security, and financial services. Prior to this role, Ms. Anderson was a leader in Booz Allen's federal Health business for 12 years. She is recognized as a thought leader for her expertise in quality measurement and using health information technology and analytics to improve the quality, safety, and efficiency of healthcare.

Prior to joining Booz Allen, she was the Vice President for Operations and Strategy at CareScience, a software solutions company that she helped to launch in 1992 and take public in 2000. CareScience created the nation's first Web-based clinical performance improvement system for hospitals and the nation's first health information exchange.

Ms. Anderson holds a MBA from The Wharton School of Business and a BA from the University of Pennsylvania.

Larry Becker

Retired Rochester, New York

Lawrence Becker is former Director, Strategic Partnerships, Alliances and Analytics for Xerox Corporation. Previously, at Xerox he served as Director of Benefits from February 2000 through June 2008. In this capacity, Becker was responsible for all health and welfare plans as well as defined benefit plans. He served as Chairman, Plan Administration Committee for these benefit plans from 2000-2016. Becker is a member of the founding Board of Governors of the Patient Centered Outcomes Research Institute (PCORI), chairs the Finance and Administration Committee, is a member of the Dissemination and Implementation Committee and a member of the Executive Compensation Committee. He served NQF (National Quality Forum) as a member of the Board of Directors, its Treasurer and Chair of the Finance Committee and as a member of the Executive Committee. He is a member of the leadership team for the Consumer Purchaser Alliance, which is funded by the RWJ Foundation. He serves on the Rand Corporation Policy Maker Panel, and he serves on the Advisory Board of Amino, Inc. He is working with University of Pennsylvania on a funded project related to Centers of Excellence. In 1978 Mr. Becker earned a BS degree from Cornell University's Industrial and Labor Relations School.

Mary Ann Clark, MHA

Vice President, Avalere Washington, DC

She has over 20 years of experience in working with complex healthcare datasets and has authored over 40 publications on the economic impact of medical technologies. She provides the vision for Neocure's data analytics product portfolio by leveraging knowledge of healthcare databases, analytic techniques and statistical methods, reimbursement, and health economics to enhance current product offerings to medical device manufacturers. She was with Boston Scientific for eight years as the Director of Health Economics and Reimbursement. Early in her career, she was a member of the Harvard RBRVS Medicare physician payment study.

Troy Fiesinger, MD, FAAFP

Lead Physician, Population Health, Village Family Practice Houston, Texas

Troy Fiesinger graduated from Baylor College of Medicine and completed his family medicine residency at East Carolina University. While practicing family medicine with obstetrics at the Scott and White Clinic, he served as the Regional Clinic Director for Quality and Safety. Dr. Fiesinger then worked as family medicine residency faculty and was the medical director of a federally qualified health center. He currently provides comprehensive primary care as part of a medium size primary care group. He is the lead physician for population health and managed care and chairs the quality committee for a Next Generation ACO.

Nancy Garrett, PhD

Chief Analytics Officer, Hennepin County Medical Center Minneapolis, Minnesota

Nancy Garrett, PhD is the Chief Analytics Officer at Hennepin County Medical Center, where she leads the analytics and information technology functions. She has worked at the provider, state, and national levels to find creative ways of using data to identify and reduce disparities in healthcare and healthcare outcomes. Nancy served on the National Quality Forum Cost and Resource Use Steering Committee and also served on the Adjustment for Sociodemographic Factors Expert Panel. She is helping to connect the work of these committees and implement the trial period for sociodemographic risk adjustment. Nancy served on the Board of Minnesota Community Measurement where she was instrumental in implementing its first cost measure.

Nancy has a PhD in sociology from the University of Illinois and examined disparities in language proficiency and use based on sociodemographic factors for her doctoral dissertation.

Andrea Gelzer, MD, MS, FACP

Senior Vice President and Corporate Chief Medical Officer, AmeriHealth Caritas Philadelphia, Pennsylvania

Dr. Andrea Gelzer is the senior vice president and corporate chief medical officer for AmeriHealth Caritas. She is responsible for setting and overseeing the organization's overall population health management, informatics, quality and provider network contracting strategies, as well as clinical policy development and data analytics oversight for all AmeriHealth Caritas' health plans and ancillary businesses. Prior to joining AmeriHealth Caritas, Dr. Gelzer served as the Chief Medical Officer for Boston Medical Center HealthNet Plan and Senior Vice President of Clinical Public Affairs at CIGNA Corporation, and spent 16 years practicing internal medicine. Dr. Gelzer serves on several national committees including the Health Care Payment Learning and Action Network's (HCP-LAN) Alternative Payment Model Framework & Progress Tracking Workgroup, Core Quality Measures Collaborative, CMS Technical Expert Panel on the National Impact Assessment of CMS Quality Measures, and the National Quality Forum's Coordinating Committee for the Medicaid Innovation Accelerator Project. She also chairs the Chief Medical Officer Leadership Council of America's Health Insurance Plans (AHIP). Dr. Gelzer earned her undergraduate degree from Tufts University and her doctor of medicine from St. George's University. She also received a master's degree in preventive medicine/administrative medicine at the University of Wisconsin Madison. She is a board certified by the American Board of Internal Medicine and by the American Board of Preventive Medicine in clinical informatics.

Rachael Howe, MS, BSN, RN

Nurse Informaticist, 3M HIS Murray, Utah

Rachael Howe has been a member of the 3M Healthcare Data Dictionary (HDD) team since 2010. She also worked at IHC for a short time aiding in their CERNER rollout. As a HDD project lead, she is responsible for process flow, standard operating procedures, and job assignments in addition to standardization and interoperability for various projects. She obtained her master's degree in the science of healthcare informatics in 2015. She has been involved in the mapping and design and development for multiple different projects to improve interoperability in EHRs and implementation of Meaningful Use Value Sets, in addition to terminology work with SNOMED CT and LOINC.

Jennifer Eames Huff, MPH, CPEH

Principal, JEH Health Consulting Senior Advisor, Pacific Business Group on Health San Francisco, California

Jennifer Eames Huff is a consultant that works on improving the quality and affordability of healthcare in the United States. She provides strategic guidance, communications support, and technical assistance on projects related to value-based purchasing, consumer decision making, performance measurement, quality improvement, and research. Prior to becoming a consultant, Ms. Eames Huff was Director of Advancing Policy for the Pacific Business Group on Health. She has also held positions for biotechnology, philanthropy, and health systems organizations.

Wanting to become more directly involved with health improvement, Ms. Eames Huff started studying and practicing Esoteric Healing over seven years ago. Ms. Eames Huff holds a master of public health in health policy and management from the University of California, Berkeley and a bachelor of arts with honors from Wellesley College. She became a Certified Practitioner of Esoteric Healing in April 2016.

Sunny Jhamnani, MD

Provider, Dignity Health & Banner Health Phoenix, Arizona

Sunny Jhamnani is an Advanced Interventional Cardiologist serving the community of Phoenix, Arizona. He trained in Cardiology and Advanced Interventional Cardiology at Yale after his training in Internal Medicine at Georgetown; prior to which he was a Research Fellow at Harvard. He has also trained in quantitative methods, including econometrics and statistics. His works center on the theme of cost and quality in medicine, particularly in cardiology. He is a Board Member of the National Board of Medical Examiners (NBME), part of NBME's Advisory Committee for Medical School Programs, the chair of American Medical Association's (AMA) Council of Business and Economics, an AMA Delegate, and an American College of Cardiology's (ACC) Board of Trustee Malpractice Workgroup member. He is a reviewer of several prominent journals with a solid publication record, active within his local medical societies and hospital system, and a strong advocate for his patients.

Lisa Latts, MD, MSPH, MBA, FACP

Deputy Chief Health Officer, Watson Health, IBM Denver, Colorado

Lisa Latts, MD, MSPH, is the Deputy Chief Health Officer at Watson Health, IBM. Her previous positions include Principal with LML Health Solutions, consulting on healthcare quality, delivery system reform, and provider/health plan collaboration, and Vice President of Public Health Policy at WellPoint, responsible for initiatives to measure and improve the health and quality of care for WellPoint's members and communities. She also directed programs to promote health equity, patient safety initiatives, and strategic alliances. Dr. Latts lives in Denver, Colorado, where she practices part-time as an internist in the University of Colorado Hospital specializing in medical complications of pregnancy.

Jason Lott, MD, MHS, MSHP, FAAP

Director, US Medical Affairs-Market Access, Bayer US LLC Whippany, New Jersey

Dr. Lott is the Director of Medical Affairs-Market Access at Bayer, leading evidence generation and value insights at the intersection of patients, pharmaceuticals, managed care, and integrated delivery networks. He is a board-certified dermatologist and health services, outcomes, and "big data" researcher. He has experience in mathematics, statistical modeling, and economics, with an emerging focus on innovative applications of machine learning, deep neural networks, and other next-wave artificial intelligence. He is a firm believer in data as a path to deliver value in healthcare, firmly committed to improving the lives of patients and populations, and, always, a physician.

Martin Marciniak, MPP, PhD

Vice President, US Medical Affairs, Customer Engagement, Value, Evidence and Outcomes, GlaxoSmithKline

Durham, North Carolina

Martin Marciniak, MPP, PhD is Vice President, US Medical Affairs responsible for Customer Engagement, Value, Evidence and Outcomes within GlaxoSmithKline. His leadership and research experience have included specific therapeutic area focus in oncology, neuroscience, cardiovascular disease, and policy and economics. He has published in peer-reviewed journals and has been invited to present clinical, health outcomes, and economic results at both national and international meetings. In addition to his research activities, Martin has previously served as a member of the National Quality Forum Cost and Relative Resource Use Steering Committee, as a nonvoting industry representative to the Medicare Evidence Development & Coverage Advisory Committee (MEDCAC) for the Centers for Medicare and Medicaid Services and as a board member for the National Pharmaceutical Council (NPC) Board of Directors. Presently, he serves on the Editorial Advisory Board for Value and Outcomes Spotlight (an ISPOR publication), and on the advisory board for the Institute for Clinical and Economic Review (ICER). In addition to these activities, he has also served the broader healthcare community in a number of different ways, most recently through invitations to engage in public forum discussions at BioCentury TV and the FDA/CMS Summit. Martin holds a position of Adjunct Assistant Professor in the Division of Pharmaceutical Outcomes and Policy at the University of North Carolina's Eshelman School of Pharmacy. He received his PhD from the University of California at Berkeley, his master's degree in public policy from Harvard University, and his BS in pharmacy from Purdue University.

James Naessens, ScD, MPH Professor, Mayo Clinic Rochester, Maine

James M Naessens, ScD, MPH, is a Professor of Health Services Research with 30 years of experience in health services research, and he is scientific director of the Center for the Science of Health Care Delivery at Mayo Clinic Florida. He received a BS in zoology and an MPH in biostatistics from the University of Michigan and also received a ScD in health systems management from Tulane. Dr. Naessens is a member of several professional societies, and has extensive publications and national and international presentations on outcomes, costs, quality, and patient safety topics. Dr. Naessens' recent work has included evaluating the impact of health benefit changes on utilization, assessing the utility of bundling.

Jack Needleman, PhD

Professor of Health Policy and Management, UCLA Fielding School of Public Health Los Angeles, California

Jack Needleman, PhD, FAAN, is Professor of Health Policy and Management, UCLA Fielding School of Public Health. His research on nurse staffing, hospital quality, and the business case for nursing won the first AcademyHealth Health Services Research Impact Award. A health economist, he has conducted research examining the performance of nonprofit and for-profit hospitals, and as codirector of the Lewin-ICF public policy practice, designed or evaluated hospital, physician, and nursing home reimbursement systems. Dr. Needleman served on the NQF Resource Use Steering Committee, 2010-2011 and the Cost and Resource Use Committee since its inception. He has PhD in Public Policy from Harvard University. He is an elected member of the National Academy of Medicine (formerly Institute of Medicine).

Janis Orlowski, MD, MACP

Chief Health Care Officer, Association of American Medical Colleges Washington, DC

As chief healthcare officer, Janis M. Orlowski, MD, MACP, focuses on the interface between the healthcare delivery system and academic medicine, especially how academic medical centers can leverage their expertise in research and innovation to support emerging reforms. She leads several AAMC groups, including the Council of Teaching Hospitals and Health Systems, which represents the interests of approximately 400 major teaching hospitals and health systems, including 64 Veterans Affairs medical centers. Dr. Orlowski joined the AAMC after serving as the chief operating officer and chief medical officer of MedStar Washington Hospital Center, Washington, DC. From 2004-2013, Dr. Orlowski oversaw the medical staff, clinical care, quality, patient safety, medical risk, perioperative services, ambulatory care, and medical education programs. Prior to MedStar Washington, she served as associate vice president and executive dean of the Rush University Medical School in Chicago. Dr. Orlowski earned her BS degree in biomedical engineering from Marquette University and her MD from the Medical College of Wisconsin.

Carolyn Pare

President and CEO, Minnesota Health Action Group Bloomington, Maine

Carolyn is the President and Chief Executive Officer of the Minnesota Health Action Group, a coalition of more than 50 public and private employers dedicated to healthcare market reform. In the 25 years since its formation, this Minnesota based coalition has introduced a number of nationally recognized innovations in health care contracting, delivery, quality, and consumerism. The Action Group members are committed to supporting a healthcare system that delivers the care consumers need at the right time, in the right place, and at the right price.

Carolyn was previously a director of human resources, responsible for benefits, risk management, and human resource information systems at Target Corporation. She currently serves on the Consensus Standards Approval Committee and serves on the Cost and Efficiency Standing Committee for the National Quality Forum. Carolyn is past Chair of the National Business Coalition on Health and served on the NCQA Standards Committee for eight years.

Carolyn also participates as a member of the National Advisory Council to the California Health Benefits Review Program, sits on the Multi-Payer Alignment Task Force for Minnesota's Accountable Health Model and has served as interim Program Director of the Minnesota Chartered Value Exchange. Carolyn has a BS in environmental and public health from the University of Wisconsin at Eau Claire and over 35 years of experience in occupational health and safety, risk management, and healthcare.

John Ratliff, MD, FACS, FAANS

Associate Professor of Neurosurgery; Vice Chair, Operations and Business Development; Co-Director, Division of Spine and Peripheral Nerve Surgery, Department of Neurosurgery, Stanford University Medical Center, American Association of Neurological Surgeons Stanford, California

Dr. Ratliff is Professor of Neurosurgery, Vice Chair, Operations and Business Development, Department Quality Officer, and Co-Director, Division of Spine and Peripheral Nerve Surgery at Stanford University Medical Center. He is a board certified neurosurgeon whose clinical focus is complex spinal surgery and whose research focuses on outcomes assessment in spine surgery procedures and defining value of care in spine surgery interventions. Dr. Ratliff holds a leadership position in the AANS. He is former chairman of the AANS/CNS Neurosurgery Quality Council, serves on neurosurgery's Washington Committee, is a member of the AANS Coding and Reimbursement Committee, and the AANS RUC Advisor. He also received the ACS/AANS Health Policy Scholarship for the Brandeis University Health Policy Leaders Program.

Andrew Ryan, PhD (Inactive)

Assistant Professor, Weill Cornell Medical College New York, New York

Andrew Ryan, PhD, is an Assistant Professor of Public Health in the Division of Outcomes and Effectiveness Research at Weill Cornell Medical College. Dr. Ryan has a PhD in social policy with a concentration in health policy from the Heller School of Social Policy and Management, Brandeis University. Dr. Ryan's research focuses on pay-for-performance and public quality reporting in healthcare, quality measurement and provider profiling, disparities and discrimination in healthcare, policy analysis, and applied econometrics. His awards and honors include the 2009 Academy Health Dissertation Award for his dissertation and the John M. Eisenberg Article-of-the-Year in Health Services Research.

Srinivas Sridhara, PhD, MHS

Managing Director, The Advisory Board Company Washington, DC

Srinivas Sridhara has 15 years of experience in measure development, health services research, and health policy analysis. He is the Managing Director for Clinician Analytics at The Advisory Board Company (ABC), where he leads development of provider performance measures and tools to profile and incentivize high-value care. Prior to ABC, Dr. Sridhara worked at the Maryland Health Care Commission, where he managed Maryland's All Payer Claims Database and reported on healthcare costs, quality, utilization, and access; led price transparency initiatives, program evaluations, and workforce studies; and managed the IRB and data release program. Dr. Sridhara previously worked at Johns Hopkins Bloomberg School of Public Health (JHSPH) and Baltimore Mental Health Systems and completed his graduate work at JHSPH.

Lina Walker, PhD

Vice President of Health Security, AARP — Public Policy Institute Washington, DC

Lina Walker is Vice President of Health Security in AARP's Public Policy Institute. She leads the Institute's research to improve the health and well-being of older people. She has over 20 years of

experience working on health and aging issues, most recently focusing on Medicare payment and delivery system reforms, and healthcare quality. Dr. Walker has worked in state and federal governments: at the Office of Policy Analysis of the Maryland General Assembly and the Congressional Budget Office. Prior to joining AARP, she was at the Brookings Institution and was research professor at Georgetown University. She has a PhD in economics from the University of Michigan.

Bill Weintraub, MD, FACC

Director of Outcomes Research, MedStar Heart and Vascular Institute, MedStar Washington Hospital Center Washington, DC

William S. Weintraub, MD, is a nationally recognized expert in outcomes research and a respected cardiologist who has published extensively in the area of health status assessment and health care economics. He serves as the Director of Outcomes Research at MedStar Heart and Vascular Institute, MedStar Washington Hospital Center. He has a long-standing interest in health informatics and played a key role in the development of the ACCF National Cardiovascular Data Registry. Dr. Weintraub has been the recipient of many national awards and research grants and has served on the editorial boards of numerous peer-reviewed journals.

Herbert Wong, PhD

Senior Economist, Agency for Healthcare Research and Quality Rockville, Maryland

Herbert S. Wong, PhD, is a senior economist with the Agency for Healthcare Research and Quality, Center for Delivery, Organization and Markets. He has over 20 years' experience working on the Healthcare Cost and Utilization Project (HCUP). In his past research, he has analyzed issues related to pricing and competition in the market for hospital and physician services. Dr. Wong currently serves as the Vice Chairman of the Maryland Health Services Cost and Review Commission. Dr.

Wong's work appears in journals such as *Health Services Research, Inquiry, Journal of Health Economics, Medical Care, Medical Care Research* and Review, Southern Economic Journal, and Review of Industrial Organization. Dr. Wong taught courses at several universities.

Dolores Yanagihara, MPH

Vice President, Analytics and Performance Information, Integrated Healthcare Association Oakland, California

Dolores Yanagihara has 10 years of experience dealing with efficiency measures, methodological trade-offs, and how to make results meaningful. She led the addition of utilization and total cost of care measures to the Integrated Healthcare Association's (IHA) statewide pay-for-performance (P4P) program, to transition from a quality-based to a value-based program. Ms. Yanagihara had to navigate both technical and political challenges while developing and implementing these measures in a multipayer, multistakeholder environment. She convened a technical committee to assess episode groupers using standardized costs, and to develop, test, and implement a population-based, risk and geography adjusted total cost of care measure using actual costs. She worked with Professor James Robinson of the University of California at Berkeley and Tom Williams to publish IHA's experience with episode measurement in a special September 2009 *Health Affairs* issue. More recently, Ms. Yanagihara led IHA's work to produce the California

Regional Health Care Cost & Quality Atlas, which displays clinical quality, hospital utilization, and cost performance by California region and payer type. She has actively served on the NQF Resource Use Steering Committee since its inception.
