

The National Quality Forum - Submitted ESRD Measures

<b>Organization</b>	<b>Title</b>	<b>Focus</b>
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Plan of Care for Anemia	anemia
Centers for Medicare & Medicaid Services	Maintenance of Iron Stores	anemia
Centers for Medicare & Medicaid Services	Hemoglobin range for ESA Therapy	anemia
Centers for Medicare & Medicaid Services	Monitoring hemoglobin levels below target minimum	anemia
Centers for Medicare & Medicaid Services	Facility Anemia Measurement (percentage of ESA-treated dialysis patients at the facility with an average hematocrit lower than 33 in the calendar year	anemia
Centers for Medicare & Medicaid Services	Facility Anemia Management (percentage of ESA-treated patients at the facility with an average homatocrit between 33 and 36 in the calendar year	anemia
Centers for Medicare & Medicaid Services	Assessment of Iron Stores	anemia
Centers for Medicare & Medicaid Services	Administration of Supplemental Iron	anemia
Centers for Medicare & Medicaid Services	Hematocrit Level in End Stage Renal Disease (ESRD) Patients	anemia
Kidney Care Quality Alliance	Anemia Management- Facilities	anemia
Kidney Care Quality Alliance	Anemia Management- Physician	anemia
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Plan of Care for Inadequate Hemodialysis	dialysis adequacy
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Plan of Care for Inadequate Peritoneal Dialysis	dialysis adequacy
Centers for Medicare & Medicaid Services	Hemodialysis Adequacy Clinical Performance Measure I: Hemodialysis Adequacy- Monthly measurement of delivered dose	dialysis adequacy
Centers for Medicare & Medicaid Services	Hemodialysis Adequacy Clinical Performance Measure II: Method of Measurement of Delivered Hemodialysis Dose	dialysis adequacy
Centers for Medicare & Medicaid Services	Hemodialysis Adequacy Clinical Performance Measure III: Hemodialysis Adequacy- HD Adequacy CPM III: Minimum Delivered Hemodialysis Dose	dialysis adequacy
Centers for Medicare & Medicaid Services	Facility Adequacy of Dialysis (percentage of the facility's hemodialysis patients with a urea reduction ration (URR) of 65% of greater in the calendar year)	dialysis adequacy
Centers for Medicare & Medicaid Services	Peritoneal Dialysis Adequacy- Calculate Weekly KT/Vurea in the Standard Way	dialysis adequacy
Centers for Medicare & Medicaid Services	Peritoneal Dialysis Adequacy- Measurement of total Solute Clearance at regular intervals	dialysis adequacy
Centers for Medicare & Medicaid Services	Peritoneal Dialysis Adequacy- Delivered Dose of peritoneal dialysis aabove minimum	dialysis adequacy

The National Quality Forum - Submitted ESRD Measures

<b>Organization</b>	<b>Title</b>	<b>Focus</b>
Centers for Medicare & Medicaid Services	Dialysis Dose in End Stage Renal Disease (ESRD) Patients.	dialysis adequacy
Kidney Care Quality Alliance	Adequacy of Dialysis- Facilities	dialysis adequacy
Kidney Care Quality Alliance	Adequacy of Dialysis- Physician	dialysis adequacy
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Influenza Vaccination	flu
Kidney Care Quality Alliance	Influenza Vaccination in the ESRD Population- Physician	flu
Kidney Care Quality Alliance	Influenza Vaccination in the ESRD Population- Facilities	flu
Centers for Medicare & Medicaid Services	Evaluation of Serum Calcium Concentration	mineral metabolism
Centers for Medicare & Medicaid Services	Measurement of Serum Calcium Concentration	mineral metabolism
Centers for Medicare & Medicaid Services	Evaluation of Serum Phosphorus Concentration	mineral metabolism
Centers for Medicare & Medicaid Services	Measurement of Serum Phosphorus Concentration	mineral metabolism
Centers for Medicare & Medicaid Services	Facility Patient Survival Classification (based on Standardized Mortality Ratio), Standard Method	mortality
Centers for Medicare & Medicaid Services	Facility Patient Survival Classification (based on Standardized Mortality Ratio), Conservative Method	mortality
Kidney Care Quality Alliance	Patient Education Awareness Quality of Life- Facilities	pt education
Kidney Care Quality Alliance	Patient Education Awareness Quality of Life- Physician	pt education
Agency for Healthcare Research and Quality	CAHPS In-Center Hemodialysis Survey	satisfaction
Kidney Care Quality Alliance	Quality of Life and Patient Satisfaction- Facilities	satisfaction
Kidney Care Quality Alliance	Quality of Life and Patient Satisfaction- Physician	satisfaction
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Vascular Access- Patients Receiving Hemodialysis	vascular access
Renal Physicians Association(RPA)/Physician Consortium for Performance Improvement®(PCPI)	Vascular Access- Patients Receiving Dialysis with Permanent Catheter	vascular access
Centers for Medicare & Medicaid Services	Monitoring for Vascular Access Dysfunction	vascular access
Centers for Medicare & Medicaid Services	Hemodialysis Vascular Access- Minimizing use of catheters as Chronic Dialysis Access	vascular access
Centers for Medicare & Medicaid Services	Hemodialysis Vascular Access- Maximizing Placement of Arterial Venous Fistula (AVF)	vascular access
Kidney Care Quality Alliance	Vascular Access- Physician	vascular access
Kidney Care Quality Alliance	Vascular Access- Facilities	vascular access
