# Maternal Mortality and Morbidity

## Discussion Questions

- What measures are you aware of that have been developed for maternal mortality and morbidity that are not in the NQF portfolio (e.g., for use only in internal quality improvement initiatives).
- What measures are you aware of that are under development or testing?
- What measure concepts would you suggest for this area?
- Are you aware of any groups/organizations working on measurement/measure development in this topic area?

# Discussion: Women's Health Measure Gaps

# Women's Health Measure Gaps

- 541 endorsed measures
- 29 endorsed measures of women's health
  - ▣ *Breast cancer (screening, treatment)*
  - ▣ *STI screening (chlamydia, HPV, general)*
  - ▣ *Osteoporosis (screening, management)*
  - ▣ *Hysterectomy*
- See Memo - Appendix A for complete list

# Discussion Questions

- Please review the overarching women's health portfolio and suggest measure gaps/concepts for all condition and topic areas, including those that would be reviewed by other committees.
