

# NATIONAL QUALITY FORUM

Driving measurable health  
improvements together

## Memo

**August 14, 2020**

**To:** NQF members

**From:** NQF staff

**Re:** Prevention and Population Health Spring 2020 Report

### Background

This report reflects the review of measures in the Prevention and Population Health project. Measures included in this portfolio assess the promotion of healthy behaviors, community-level indicators of health, oral health, and primary prevention strategies.

The 25-person Prevention and Population Health Standing Committee reviewed two measures. One was recommended for endorsement and one measure did not pass validity – a “must-pass” criterion.

### Recommended Measure:

- NQF 0032 Cervical Cancer Screening (National Committee for Quality Assurance)

### Measure Not Recommended:

- NQF 0509 Diagnostic Imaging: Reminder System for Screening Mammograms (American College of Radiology)

**The Committee requests comments on all measures.**

### NQF Member and Public Commenting

NQF members and the public are encouraged to provide comments via the online commenting tool on the draft report as a whole, or on the specific measures evaluated by the Prevention and Population Health Standing Committee.

**Please note that commenting concludes on September 14, 2020 at 6:00 pm ET—no exceptions.**
