

Primary Care and Chronic Illness Standing Committee: Fall 2018 Cycle

COMMITTEE CHAIRS

Dale Bratzler, DO, MPH

Chief Quality Officer, OU Physicians – Oklahoma University Health Sciences Center
Oklahoma City, Oklahoma

Dale Bratzler, DO, MPH, is a Professor of Health Administration and Policy and Associate Dean in the College of Public Health, and a Professor in the College of Medicine at the Oklahoma University Health Sciences Center. He also serves as the Chief Quality Officer for the OU Physicians Group. Dr. Bratzler served twice as the President of the American Health Quality Association, is a past member of the National Advisory Council for the Agency for Healthcare Research and Quality, and a recent member of the Healthcare Infection Control Practices Advisory Committee for the Centers for Disease Control and Prevention.

Adam Thompson, BA

Regional Partner Director, Northeast Caribbean AIDS Education and Training Centers
Voorhees, New Jersey

Mr. Adam Thompson holds a degree in theology from Georgetown University and currently serves as the Regional Partner Director of the South Jersey Local Performance Site of the Northeast Caribbean AIDS Education and Training Center. Mr. Thompson moved through the organization serving as the HIV Testing Coordinator and finally as the Manager of the Prevention, Education, and Testing Department. Mr. Thompson has served on several local and regional planning bodies including serving as Chair of the Virginia HIV Planning Group and now as a member of the Philadelphia Ryan White HIV Planning Council. He works with the National Quality Center as a quality management coach focusing on patient involvement and engagement. Mr. Thompson has previously served on National Quality Forum panels and currently serves on the Centers for Medicare & Medicaid Services Technical Expert Panel for measures of patient safety and care coordination. He is the 2010 recipient of the National Quality Center Leadership in Quality Award. Mr. Thompson considers himself to be an advocate for modernizing healthcare and meaningful involvement of patients and consumers in the planning, delivering, and evaluating of care services.

COMMITTEE MEMBERS

Thiru Annaswamy, MD, MA

Section Chief, Spine and Electrodiagnostic Sections, PMR Service, VA North Texas Health Care System, Dallas VA Medical Center
Dallas, Texas

Dr. Annaswamy is a Professor with the Department of Physical Medicine and Rehabilitation (PM&R) at the University of Texas Southwestern Medical Center (UTSWMC) and a full-time staff physician and section chief (Spine and Electrodiagnosis sections) at the VA North Texas Health Care System/Dallas VA Medical Center (PM&R Service). He received his medical degree in India (1992) and master's degree from UT, Austin (1994). He completed post-graduate medical training in PM&R at Harvard Medical School (1999). His clinical expertise and research interests are in the management of spine and musculoskeletal disorders, diseases of the muscles and nerves, and clinical outcomes research. He is board certified in PM&R, pain medicine, electrodiagnostic medicine, and neuromuscular medicine.

Robert Bailey, MD

Director, Janssen Scientific Affairs, LLC
Venice, Florida

As Director of Health Economics and Outcomes Research at Janssen Scientific Affairs, LLC, Dr. Bailey leads diabetes studies focused on public policy and quality. These projects focus on quality measures, patient outcome measurement, and care disparities. Being Board Certified in Internal Medicine and Nephrology, Dr. Bailey provided direct patient care as a practicing Nephrologist for 10 years. Since T2DM is the leading cause of kidney disease, Dr. Bailey has first-hand knowledge of the clinical challenges in T2DM care. His experience has supported an understanding of patient, provider, and payer dynamics and perspectives in multiple therapeutic areas and in multiple sites of care delivery.

Lindsay Botsford, MD, MBA, FAAFP

Family Physician & Medical Director, Physicians at Sugar Creek – Memorial Hermann Healthcare System
Sugar Land, Texas

Lindsay Botsford, MD, MBA, FAAFP, is a practicing family physician with Memorial Hermann Medical Group, faculty with Memorial Family Medicine Residency, and Medical Director of Physicians at Sugar Creek in Sugar Land, Texas. She is skilled in the use of EHRs and registries for quality measurement and improvement, is an EHR-Champion and SuperUser, and has led PCMH certification efforts. Dr. Botsford has spoken nationally, published, and has served on numerous local, state, and national committees on the topics of family medicine, quality measurement and improvement, medical home, bioethics, and chronic disease management, including chronic pain, socioeconomic factors, diabetes, lipid management, and asthma.

Roger Chou, MD

Professor of Medicine, Oregon Health & Science University
Portland, Oregon

Dr. Chou is a Professor in the Departments of Medicine and Medical Informatics and Clinical Epidemiology at Oregon Health & Science University (OHSU) School of Medicine. He is also Director of the Pacific Northwest Evidence-based Practice Center, funded by the Agency for Healthcare Research and Quality (AHRQ), and a Fellow of the American College of Physicians (ACP). Dr. Chou has led systematic evidence reviews for the U.S. Preventive Services Task Force, AHRQ's Effective Health Care Program, the Drug Effectiveness Review Project, the Centers for Disease Control and Prevention, and a number of professional societies. He has served on ACP's Clinical Guidelines Committee, serves as a methodologist for several World Health Organization guideline efforts, is Co-Editor of the Cochrane Back and Neck Group, and is on several journal editorial boards.

William Curry, MD, MS

Practicing Family Physician and Associate Vice-Chair for Research, Pennsylvania State University
College of Medicine
Hershey Park, Pennsylvania

Dr. Curry is a professor in the Departments of Family and Community Medicine and Public Health Sciences at the Penn State College of Medicine in Hershey, PA. He is a practicing Family Physician, a member of the AAFP, and currently actively involved in institutional and departmental quality work and primary care research. In his quality work at his institution, he directs care management programs, many of which are driven by NQF specifications.

Jim Daniels, BSN

Director, Primary Care Sports Medicine Fellowship, Southern Illinois University
Carbondale, Illinois

Dr. Daniels is a family physician and sports medicine specialist, is the founder and program director of primary care sports medicine fellowship, associate director of research and academic affairs, and vice-chair of the Department of Family and Community Medicine with a cross appointment in the Department of Orthopedic Surgery. Dr. Daniels has extensive teaching and publishing on evidence-based musculoskeletal medicine in primary care, implementing quality improvement methods and techniques in musculoskeletal treatment, and point of care musculoskeletal ultrasound in primary care. Dr. Daniels' experience includes curriculum development, CME, and exam writing for the AIUM and AMSSM.

Woody Eisenberg, MD

Managing Member, WE Managed Care Consulting, LLC
West Orange, New Jersey

Woody Eisenberg, MD, is the managing member of WE Managed Care Consulting, LLC. From 2013 until June of 2017 he served as Senior Vice President for Performance Measurement and Strategic Alliances for the Pharmacy Quality Alliance, Inc. (PQA, Inc.). In this role, he led the organization's strategic initiatives related to development, testing, and implementation of PQA performance measures across the healthcare marketplace. He was also responsible for developing services that enable government agencies, employers, health plans, accountable systems of care, pharmacy

benefit managers, and pharmacies to utilize PQA measures for meaningful improvement of medication-use quality. Dr. Eisenberg has 20 years of experience as a managed care medical executive, including serving as Chief Medical Officer for Medicare and Medicaid Services at Medco. Past positions include Medical Director for Managed Markets with GlaxoSmithKline and Medical Director for Pharmacy Management with Oxford Health Plans. Dr. Eisenberg has served on several Centers for Medicare and Medicaid Services Technical Expert Panels, which develop quality measures for pharmacists, hospitals, and medication therapy management programs that seek to improve the quality of care provided to Medicare beneficiaries. Dr. Eisenberg received his undergraduate degree from SUNY-Albany and his medical degree from NYU School of Medicine. He is board certified in internal medicine and infectious diseases, and has practiced medicine in both academic and community settings.

Kim Elliott, PhD

Executive Director, Health Services Advisory Group
Phoenix, Arizona

Dr. Elliott is an Executive Director at Health Services Advisory Group, an External Quality Review Organization (EQR) and is responsible for determining state and MCO compliance with CMS and state requirements in the areas of performance measures, focused studies, and operational compliance. Dr. Elliott directs and conducts performance measure validation work which includes the HEDIS, CMS core measures, and state-specific performance measures. Previously Kim worked for nearly 15 years as the Administrator of the Clinical Quality Management department of the Arizona Medicaid program and led the state's quality initiatives including the development of the state's quality strategy, quality, and performance measures, satisfaction surveys, quality improvement, care coordination, evidence-based policy decisions, value-based purchasing, and integration. Kim led the agency's quality management, EPSDT, maternal and child health, oral health, prevention and wellness, quality improvement and the behavioral health programs for the acute, long-term care, special health care needs, developmentally disabled, foster care, and behavioral health programs. Kim has participated in CMS expert panels including Medicaid Access to Care and in the development of Core Measure sets and represented region IX on the Medicaid Quality TAG. Prior to her role at Arizona Health Care Cost Containment System (AHCCCS), she worked for Medicaid, commercial, and Medicare health plans.

V. Katherine Gray, PhD

President, SAGE Health Management Solutions, Inc.
Minneapolis, MN

Prior to Dr. Gray's broad background in healthcare management, she was a Director of Research with over 45 publications and presentations. Her management experience traverses all segments of the healthcare industry, including managed care, self-insured employers, long-term care, hospital systems, Medicaid and Medicare, and specialty care. A recognized leader in healthcare quality and efficiency improvements, in 1997 Dr. Gray founded Sage Health Management Solutions, Inc. with a vision to develop web-based technology to improve the diagnostic process using evidence-based clinical decision support. Dr. Gray is considered an innovator and force for change in the healthcare industry.

Starlin Haydon-Greatting, MS, BS, Pharm, FAPhA

Director of Clinical Programs, Illinois Pharmacists Association
Springfield, Illinois

Haydon-Greatting currently serves as Illinois Pharmacists Association's (IPhA's) Director of Clinical Programs, working primarily to establish the Illinois Pharmacists Network. This network was developed to implement IPhA's vision to improve patient-centered care, which includes programs for diabetes, pre-diabetes, and cardiovascular health. The IPhA Patient Self Management Programs are modeled after the Asheville Project® and based on the HealthMapRx™ program. Ms. Haydon-Greatting also coaches patients in the pharmacist-based care management program in diabetes, cardiovascular health, asthma, and depression. Starlin is an expert in the field of healthcare outcomes research and drug-use analysis, with over 25 years of experience with medical and pharmacy claims analysis and population health management.

Ann Kearns, MD, PhD

Consultant Endocrinologist, Mayo Clinic
Rochester, Minnesota

Dr. Kearns completed an MD/PhD program at the University of Chicago, where she also completed internal medicine residency training. Following a fellowship in Endocrinology at Massachusetts General Hospital, she assumed her current position as a Consultant Endocrinologist at Mayo Clinic Rochester. Her clinical and research interests center on osteoporosis and calcium disorders. She is an active member of the Endocrine Society, the American Society of Bone and Mineral Research, and the American College of Medical Quality. I became the Chair of Safety and Quality in the division when that position was created in 2010.

Anne Leddy, MD, FACE

Attending Physician, Gloucester-Mathews Free Clinic
Gloucester Courthouse, Virginia

Dr. Anne Leddy practices endocrinology in Southeastern Virginia. She is a graduate of the Johns Hopkins University School of Medicine and did her Internal Medicine Residency at the Union Memorial Hospital in Baltimore where John Eager Howard was Chair of the Department of Medicine. She returned to Johns Hopkins for her Endocrine Fellowship with Dr. Howard. Dr. Leddy was an active member of the Hopkins Endocrine Division, initially as full-time faculty and later as assistant professor on the part-time faculty. While at Hopkins, Dr. Leddy was attending physician on the clinical consultation service; coordinated Endocrine Grand Rounds; served on the Staff Conference Committee and on the Advisory Committee to the Chair of the Department of Medicine. In 1988, she established an independent endocrine practice in Newport News Virginia focusing on thyroid, metabolic bone disease, and lipid disorders. Dr. Leddy joined the Tidewater Physicians Multispecialty Group in 2008 where she was managing physician of the group's Bone Health Center. Retiring from her medical group in 2013, she now serves as attending physician at the Gloucester-Mathews Free Clinic providing endocrine consultative care for the working poor of two rural Virginia counties.

Grace Lee, MD

Section Head Endocrinology, Virginia Mason Medical Center
Seattle, Washington

Dr. Lee graduated from the University of California San Francisco with a fellowship in Endocrinology and Metabolism. There, she was an Assistant Professor of Endocrinology for four years. Her research focused on glucose metabolism and HIV. She then transitioned to a clinical position at Kaiser Permanente Northern California but continued to pursue clinical research using the large Kaiser Northern California database on the topics of osteoporosis, diabetes in the bariatric setting, and PCOS. In 2012, Dr. Lee moved to Seattle where she became the Section Head for Endocrinology for the Virginia Mason Medical Center. I also have been involved with the inpatient and outpatient diabetes initiatives at Virginia Mason.

Anna McCollister-Slipp

Co-Founder, Galileo Analytics
Washington, District of Columbia

Anna McCollister-Slipp is the co-founder of Galileo Analytics, a Visual Data Exploration and advanced data analytics company focused on democratizing access to and understanding of complex health data. Anna's passion for improving healthcare research through innovation in health data analytics is rooted in her personal experiences living with type 1 diabetes. In her professional and personal activities, Anna seeks to build platforms for better understanding of and engagement with the needs of patients. She speaks frequently about the need for innovation in medical device data and technology, promoting data standards, device interoperability, and user platforms aimed at empowering patients to better manage their health. In addition, Anna is a vocal advocate for improving methods for comparative effectiveness research and the development of more refined outcomes measures to better guide care and assess treatments. She serves on the FDA/ONC/FCC HIT Policy Committee's FDASIA Working Group, which is advising the agencies on creating a regulatory pathway that will help protect patients, while enabling and promoting innovation in HIT systems, mobile applications, and medical device interoperability. She is a member of the FDA's advisory committee on General Hospital and Personal Use Medical Devices, and serves on the advisory committee for FDA's MDEpiNet, which is working to establish a system for improving medical device product safety surveillance and comparative effectiveness research. Anna was named by XX In Health as a "Woman to Watch" at Health Datapalooza 2013, and as co-founder of Galileo Analytics, was one of a select group of innovators invited to participate in "The Hive" at TEDMED 2013.

Janice Miller, DNP, CRNP, CDE

Assistant Professor, Thomas Jefferson University
Philadelphia, Pennsylvania

Dr. Miller has 31 years of experience in nursing, 17 as a Nurse Practitioner, and 10 as a Certified Diabetes Educator. She has insight into patient, practice, and community needs for improved outcomes. She evaluated diabetes metrics for her practice and developed improvement strategies, championing a successful PCMH application. Her doctoral project involved innovatively engaging patients with diabetes and earned her the Outstanding Practice Inquiry Project Award in 2012. Dr. Miller has experience with instrument development. She conducted environmental

scans for a Medicare QIO and presented findings to a Technical Expert Panel. She provided reviews and recommendations for measure endorsement.

James Rosenzweig, MD

Director of Diabetes Services and Associate Professor of Medicine, Boston University School of Medicine, RTI International
Boston, Massachusetts

Dr. Rosenzweig was born in NYC, and completed his BA and MD degrees at Yale College and Yale School of Medicine. He then became a medical resident at Barnes Hospital, Washington University School of Medicine. Subsequently he completed his Endocrinology and Metabolism Fellowship at the NIH, in the Diabetes Branch of NIDDK as a clinical associate, and member of the Public Health Service. He was a Lita Annenberg Hazen Fellow in Clinical Research at the NIH. He has served on the faculty of Case Western Reserve School of Medicine and then moved to Boston to join the faculty of Harvard Medical School as Director of Disease Management and Associate Director of Adult Diabetes. Currently he is Director of Diabetes Services at Boston University School of Medicine and Boston Medical Center.

Steven Strobe, MD, MEd, MPH, FAAFP

Physician Consultant for Disability Determination, AR Disability Determination Services
Little Rock, Arkansas

Steven Strobe, MD, MEd, MPH, FAAFP, family physician, serves as a consultant for the Arkansas Disability Determination for Social Security Administration. In his career he has held numerous clinical, academic, and advisory positions with the University of Arkansas and Arkansas Veterans Healthcare System, and Arkansas's QIO, Arkansas Foundation for Medical Care. Dr. Strobe has had a longstanding interest in quality improvement and performance measurement, and his work has been reflected in measurement and clinical guideline workgroups. As an experienced family doctor, educator, author, editor, and professional leader, Dr. Strobe has been recognized with numerous awards.

William Taylor, MD

Associate Professor of Population Medicine and Associate Professor of Medicine, Harvard Medical School; Director of Medical Education, Academic Institute, Atrius Health
Boston, Massachusetts

Dr. Taylor's focus on patient-centered primary care, patient-doctor communication, clinical prevention, and clinical epidemiology has provided the basis for his work in primary care and medical education at Harvard Medical School for four decades. He has served as a Liaison Committee on Medical Education Faculty Fellow, and as a member of the Internal Medicine Certifying Examination Writing Committee of the American Board of Internal Medicine, the New England Comparative Effectiveness Advisory Council, and the High Value Care Task Force of the American College of Physicians. Areas of interest include the periodic health examination, medical interviewing, communication about risk, cholesterol reduction, tuberculosis prevention, cancer screening, and the diagnosis of diabetes.

Kimberly Templeton, MD

Professor of Orthopaedic Surgery, University of Kansas Medical Center
Kansas City, Kansas

Dr. Templeton is Professor of orthopaedic surgery at the University of Kansas Medical Center in Kansas City. She has been the orthopaedic residency program director for the past several years, while also serving on the Graduate Medical Education executive committee. In 2013, Dr. Templeton was elected to the National Board of Medical Examiners, after spending several years on various committees, task forces, and review committees. She was named “Top Doc” by Ingram’s magazine and received the Marjorie J. Siddridge leadership award for women in medicine from the University of Kansas in 2012. Dr. Templeton is a past-president of the US Bone and Joint Initiative (USBJI), a nonprofit organization of over 100 organizations whose mission is to improve bone and joint health in the United States through research, education, and advocacy. She has developed several public education programs for the USBJI in the areas of bone health, injury prevention, and arthritis. Dr. Templeton is immediate past-president of the American Medical Women’s Association (AMWA). She serves as chair of the Sex and Gender Women’s Health Collaborative a collaborative effort of the Society for Women’s Health Research. In 2013, Dr. Templeton was named by the National Academy of Sciences to the musculoskeletal work group, reviewing and recommending new venues for sex and gender research for the National Aeronautic and Space Administration (NASA). Dr. Templeton is a past chair and current member of the Orthopaedic Section of the American Medical Association. Dr. Templeton is past-president of the Kansas State Board of Healing Arts and a member of several of its committees. She chaired a collaborative group of the various interested professional boards in Kansas to re-write the state’s policy on chronic pain management. She currently sits on the advisory committee for the state’s prescription drug monitoring program. Her research interests include women’s health, medical education, and treatment of osteosarcoma.

John Ventura, DC

Partner, Spine Care Partners and Primary Spine Provider Network
Rochester, NY

Dr. Ventura has 30 years of experience as chiropractic clinician and 15 years as clinical instructor in family medicine at University of Rochester School of Medicine, adjunct professor at New York Chiropractic College, and D'Youville College. He serves on the board of United States Bone and Joint Initiative and is a member of the technical expert panel of CMS for development of metrics for the Physician Quality Reporting System. He volunteered for over 20 years as a clinician in a multidisciplinary free health clinic serving a marginalized population with limited access and resources for healthcare due to low socioeconomic status.
