

Community Public Reporting Dashboard

Orientation Web Meeting

**September 28, 2010
12:00pm-2:00pm EST**

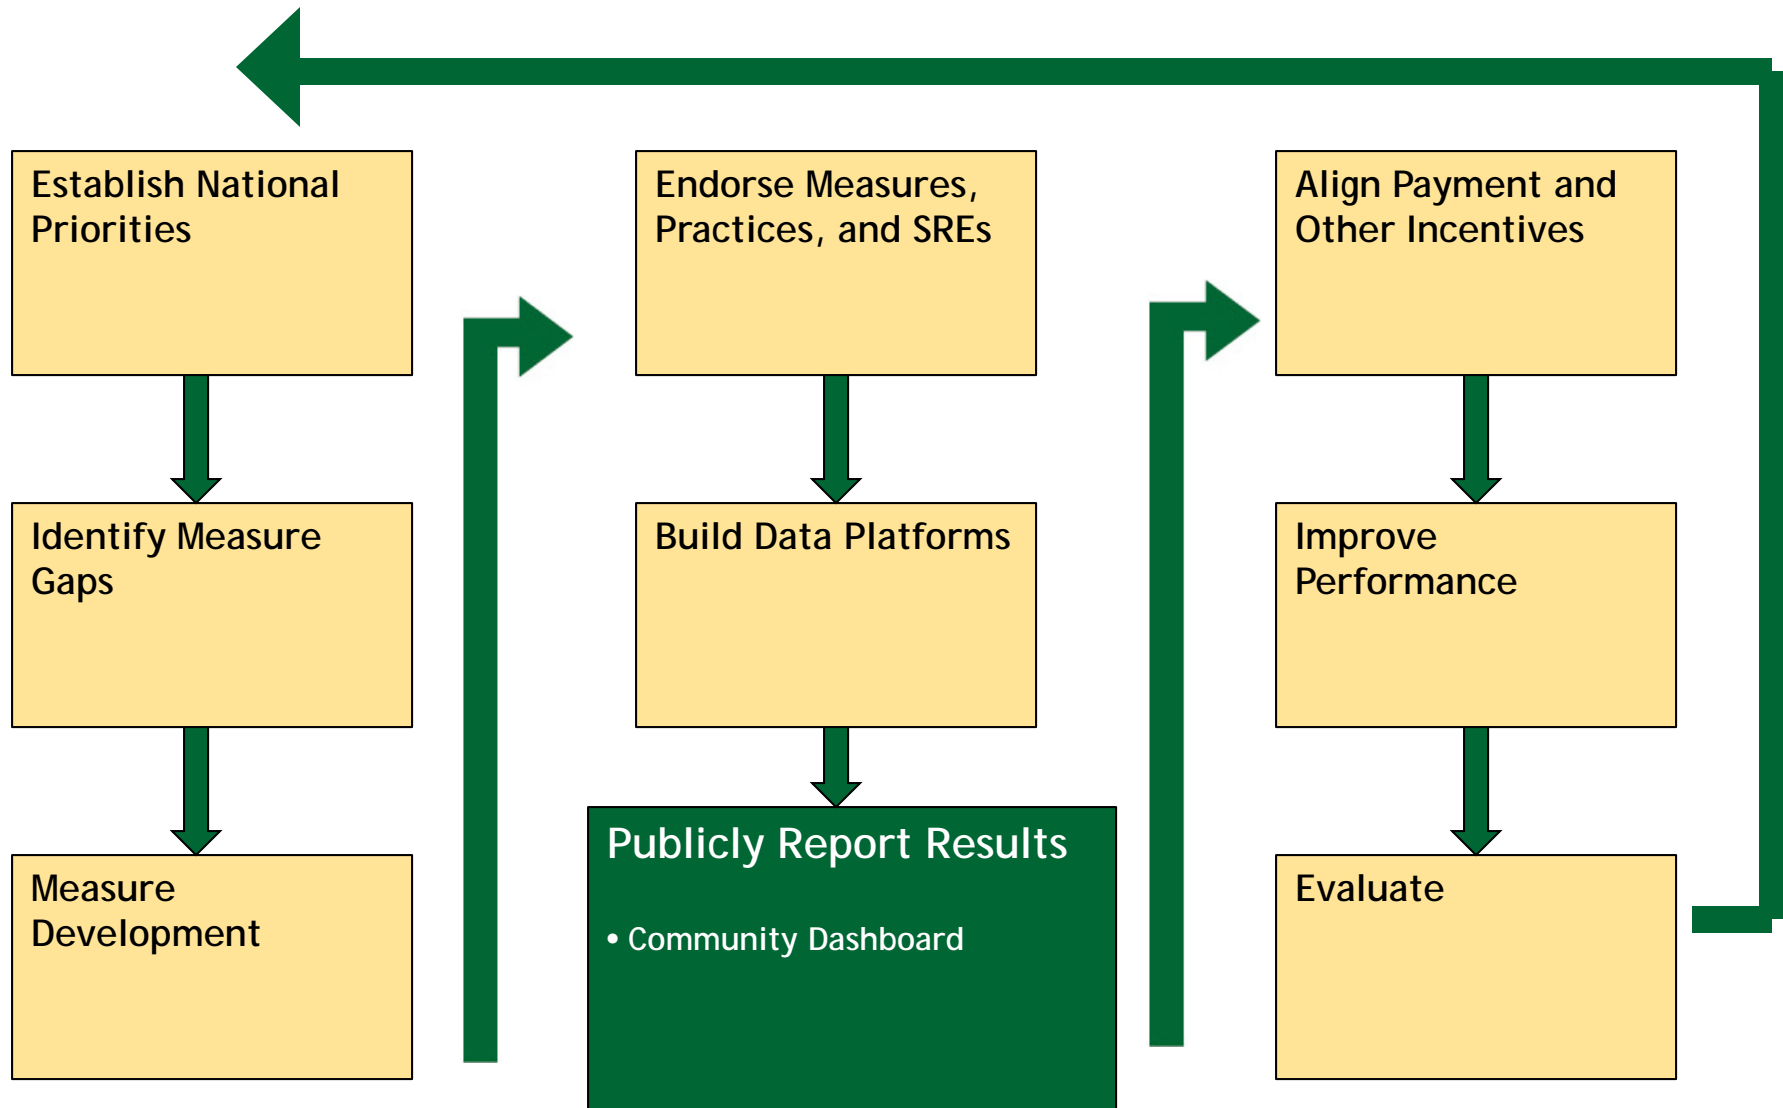

The charge of the Community Public Reporting Dashboard Workshop participants is to identify core domains and sub-domains of a public reporting dashboard. Where possible, the group will also identify endorsed metrics.

Communities could then adapt around the core dashboard to reflect the issues specific to their constituents.

- Introduce the Community Public Reporting Dashboard Project
- Lay the groundwork through:
 - the National Priorities Partnership priorities & goals;
 - the NQF-endorsed Patient Focused Episodes of Care Framework; &
 - the Department of Health & Human Services Proposed National Health Strategy
- Provide results of a public reporting environmental scan
- Explain first step ranking exercise for building Dashboard

*Introduction of the
Community Public Reporting
Dashboard Project*

Quality Enterprise Functions: NQF Contributions

Why a Standardized Dashboard?

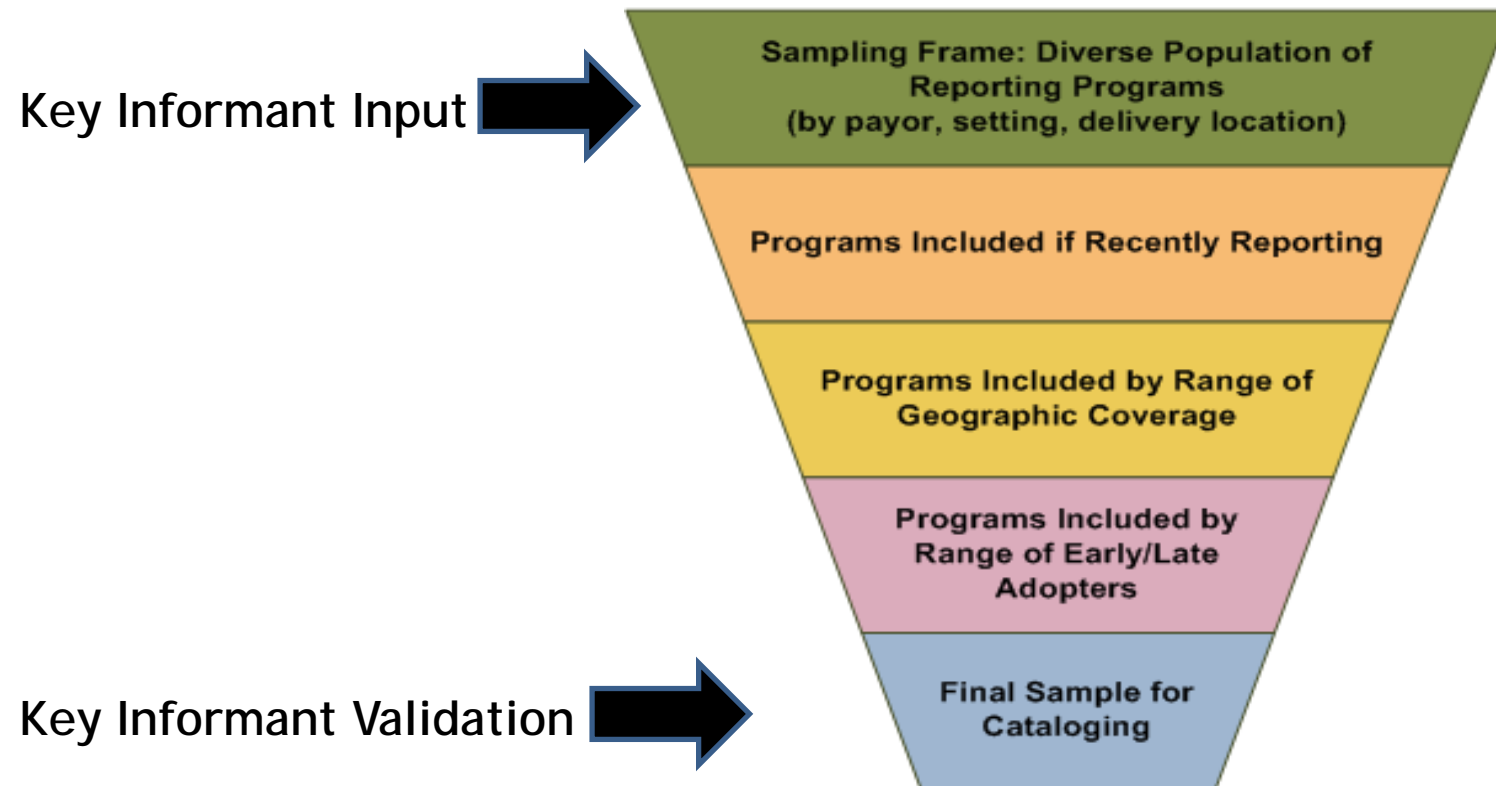

- Enable true quality comparisons of a core set of measures, while providing community flexibility
- Give consumers better information to make informed decisions

Process: Phase One – March through July 2010

- Conduct an environmental scan of public reporting programs – national, state, county, regional
- Catalog sample of public reporting programs & their measures

Community Public Reporting Dashboard Project

Sampling Strategy for Environmental Scan & Analysis of Public Reporting Programs

Process: Phase Two – July through August 2010

- Map cataloged measures to NQF's integrated patient-focused episode of care framework & National Priorities

Process: Phase Three - August through October 2010

- Develop report of scan & analysis results
- Convene stakeholder group to identify a prioritized set of domain and sub-domain areas for use in a community-based public reporting dashboard

Project Deliverables:

- Environmental scan & catalog report that presents convergence & divergence of current public reporting programs
- Database that includes scanned & cataloged programs along with their measures
- Guidance document that recommends measure domains & sub-domains for public reporting

Next Steps:

- Pilot of dashboard with three communities
- Documentation of lessons learned

Questions & Discussion?

- *Is the charge of the group clear?*
- *Do you understand the scope of the work & the objectives?*

*Laying the Groundwork: NPP
Integrated Framework &
Alignment with the HHS
National Healthcare Strategy*

- National Priorities Partnership:
 - Patient & Family Engagement
 - Population Health
 - Safety
 - Care Coordination
 - Palliative & End-of-life Care
 - Overuse
- Patient-focused episodes of care

42 multi-stakeholder organizations

- Consumers
- Purchasers
- Quality alliances
- Health professionals/providers
- State-based associations
- Community collaboratives & regional alliances
- Accreditation/certification groups
- Health plans
- Supplier & industry groups

Six ex officio non-voting members

CMS, CDC, AHRQ, NIH, HRSA, VA

Co-Chairs:

Bernie Rosof, MD, Physician Consortium for Performance Improvement

Margaret O'Kane, MHS, National Committee for Quality Assurance

- Engage patients & their families in managing their health & making decisions about their care
- Areas of focus:
 - Patient experience of care
 - Patient self-management
 - Informed decision-making

- Improve the health of the population
- Areas of focus:
 - Preventive services
 - Healthy lifestyle behaviors
 - National index to assess health status

- Improve the safety & reliability of America's healthcare system
- Areas of focus:
 - Healthcare-associated infections
 - Serious adverse events
 - Mortality

- Ensure patients receive well-coordinated care within & across all healthcare organizations, settings, & levels of care
- Areas of focus:
 - Medication reconciliation
 - Preventable hospital readmissions
 - Preventable emergency department visits

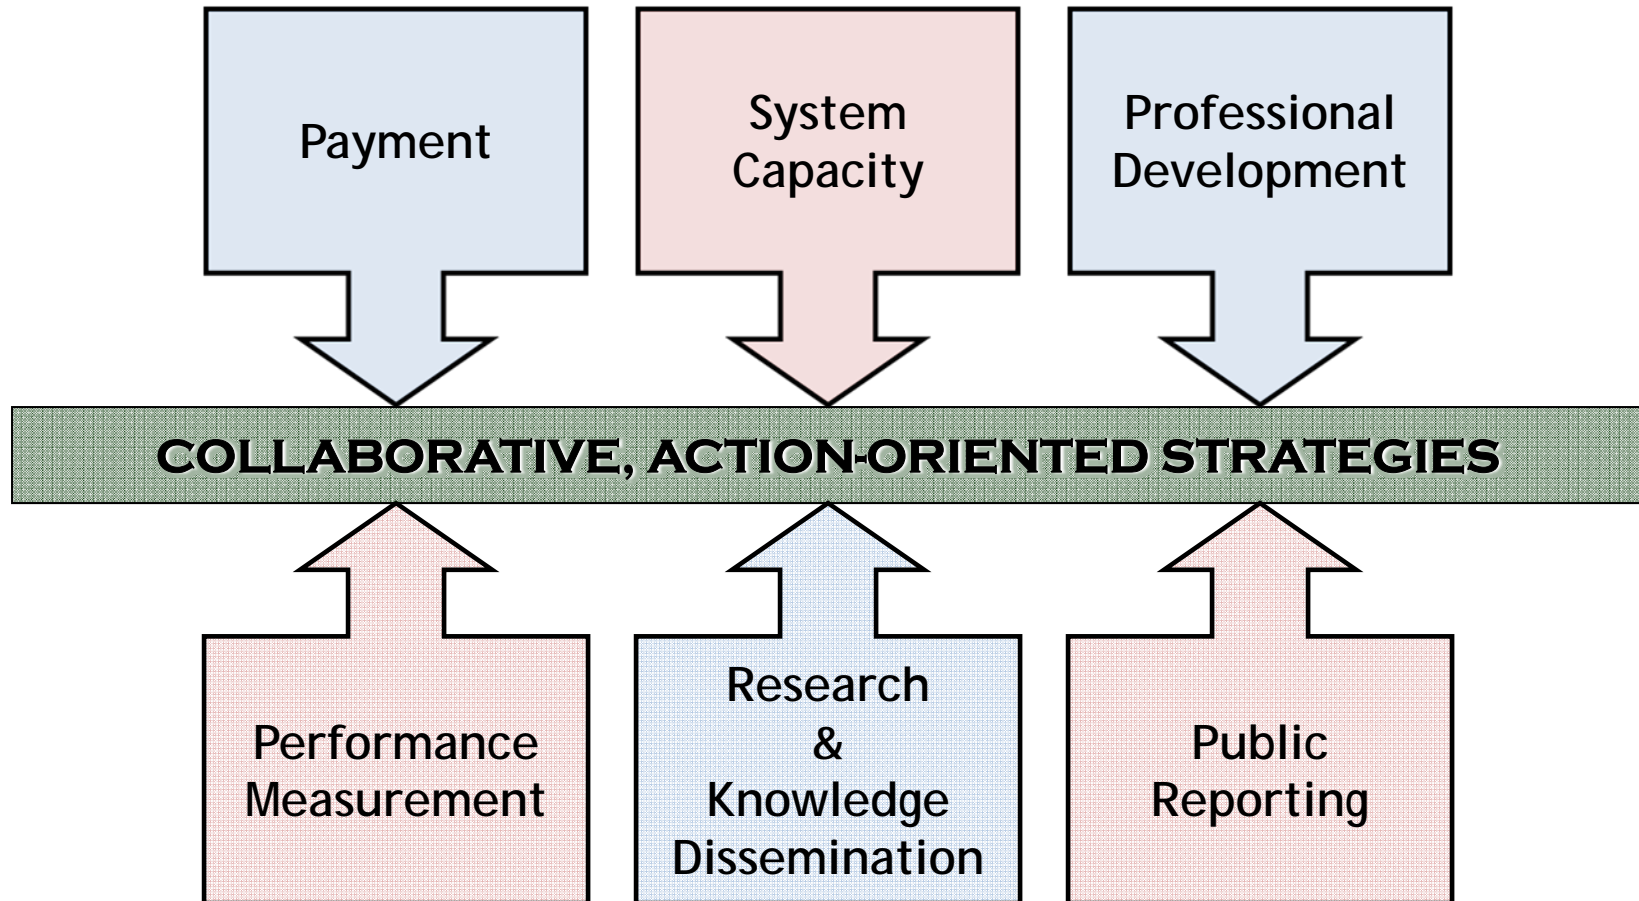

- Guarantee appropriate & compassionate care for patients with life-limiting illnesses
- Areas of focus:
 - Relief of physical symptoms
 - Help with psychological, social & spiritual needs
 - Effective communication regarding treatment options, prognosis
 - Access to high-quality palliative care & hospice services

- Eliminate overuse while ensuring the delivery of appropriate care
- Areas of focus:
 - Inappropriate medication use
 - Unnecessary lab tests
 - Unwarranted maternity care interventions
 - Unwarranted diagnostic procedures
 - Unwarranted procedures
 - Unnecessary consultations
 - Preventable emergency department visits & hospitalizations
 - Inappropriate non-palliative services at end of life
 - Potentially harmful preventive services with no benefit

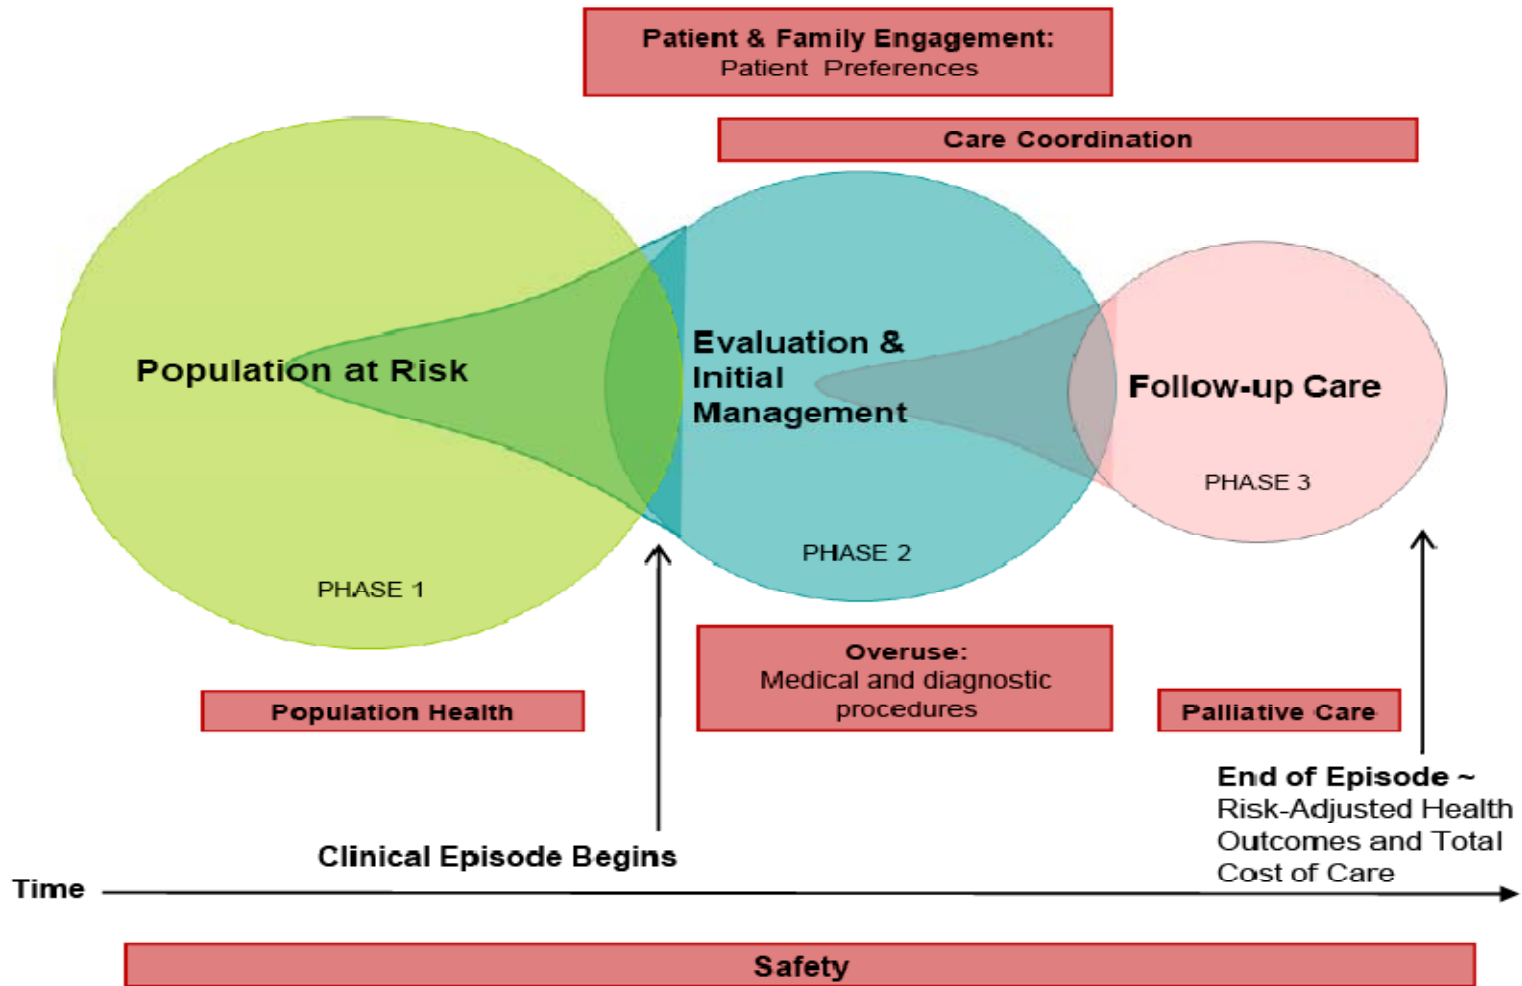

Driving to achieve results...

- Patient-focused orientation
 - Follows the natural trajectory of care over time
- Directed at value
 - Quality, costs, & patient preferences
- Emphasizes care coordination
 - Care transitions & hand-offs
- Promotes shared accountability
 - Individual, team, system
- Addresses shared decision-making
 - Attention to patient preferences
- Needed to support fundamental payment reform

- Patient-level outcomes (better health)
 - Morbidity & mortality
 - Functional status
 - Health-related quality of life
 - Patient experience of care
- Processes of care (better care)
 - Technical
 - Care coordination/transitions /care planning
 - Decision quality – care aligned with patients' preferences
- Cost & resource use (less overuse, waste, misuse)
 - Total cost of care across the episode
 - Patient opportunity costs

Integrated Framework: Patient-Focused Episodes of Care & NPP

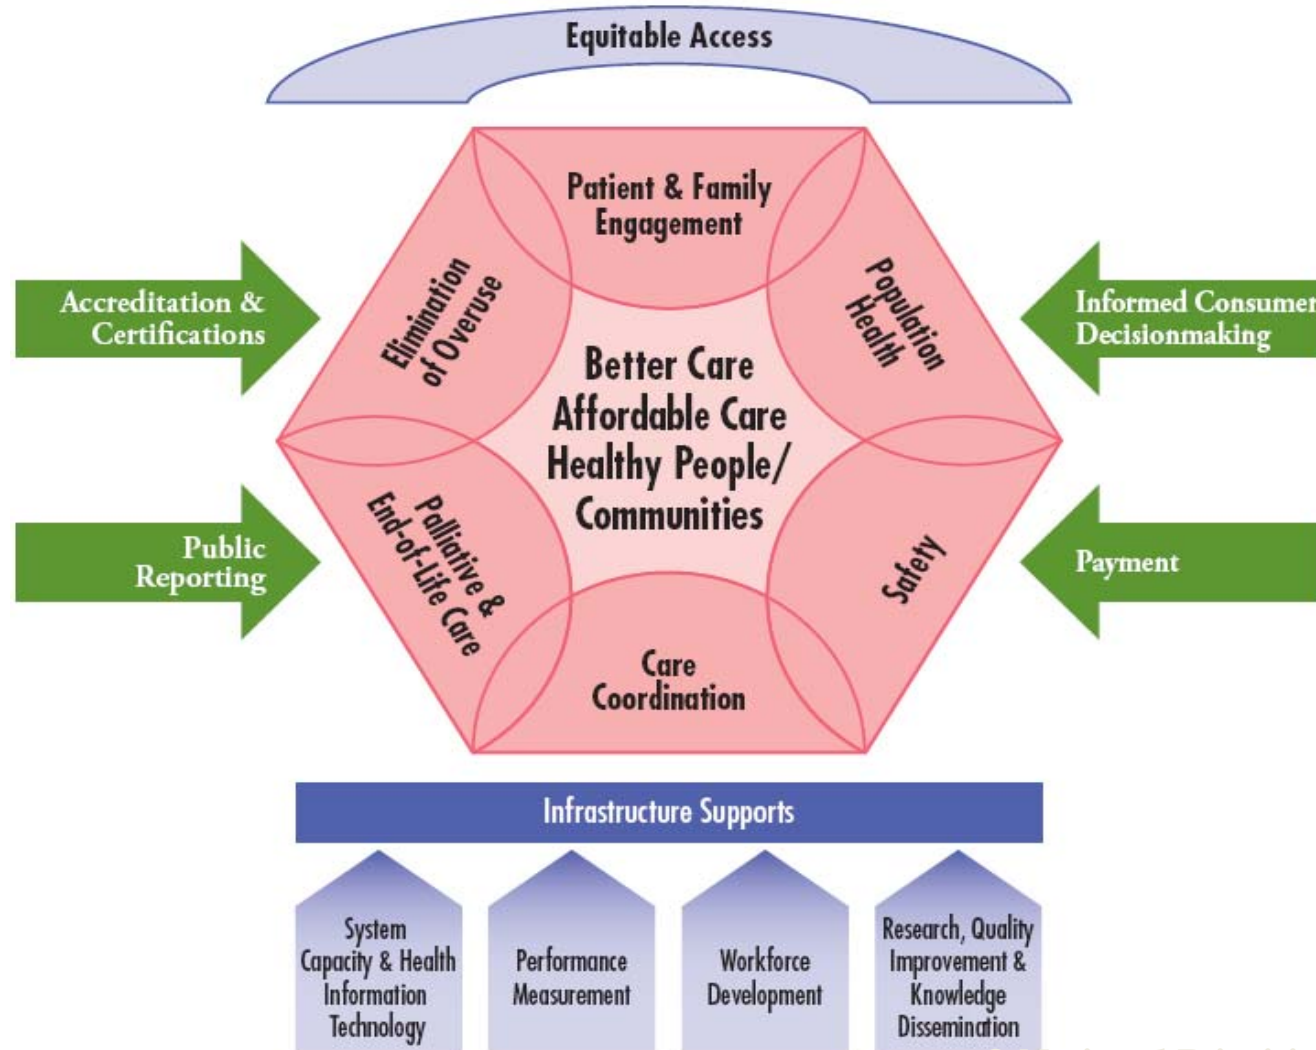

Health reform legislation, the Patient Protection & Affordable Care Act (PPACA), requires the Secretary of Health & Human Services to *“establish a national strategy to improve the delivery of health care services, patient health outcomes, & population health.”*

HR 3590 §3011, amending the Public Health Service Act (PHSA) by adding §399HH (a)(1)

- Alignment with the national priorities & strategy for healthcare quality improvement
- Identification of priority measure gaps to direct development resources to high leverage areas
- Continuous scan of the measure development pipeline to make mid-course corrections, as necessary
- **HEALTH REFORM LINKS:**
 - AHRQ and CMS to conduct triennial **assessment of measure gaps** (ACA Section 3013)
 - **\$75 million for measure development** authorized, but not yet appropriated (ACA Section 3013)
 - Expanded **public reporting & new performance-based payment** reform models (various ACA provisions)
 - Measurement of **HIT meaningful use** (ARRA HITECH provisions)
 - Mandate & funding for **child health performance measures** (CHIPRA quality provisions)

- Domains
 - High-quality care
 - Affordable care
 - Good health
- Principles
 - Patient-centeredness & family engagement
 - Quality care for patients of all ages, populations, service locations, & sources of coverage
 - Elimination of disparities
 - Alignment of public & private sectors

NPP Input to Secretary of HHS to Inform the National Strategy for Healthcare Quality

Questions & Discussion?

- *Does the integrated framework provide a starting point for thinking about a Dashboard?*
- *What might be missing?*

*Public Reporting Environmental
Scan, Catalog, & Mapping
Results*

Sample Selection

- Over 300 public reporting programs scanned
- 72 selected for cataloging based on geographic focus, early/late adopter status, & key informant validation
- 4,254 total measures were cataloged for the 72 programs – there were 1,658 unique measures

Characteristics of the 72 Programs

- 71% of programs began public reporting after 2005
- 29% of programs reported before 2005

Geographic Focus of Reports

Note: Categories are not mutually exclusive so numbers add up to more than 100%

Environmental Scan & Catalog Results

Characteristics of the Measures

- 71% of the measures cataloged were not NQF-endorsed®
- However, 78% of programs did use an NQF-endorsed® measure in their reporting

Environmental Scan & Catalog Results

Note: Categories are not mutually exclusive so numbers add up to more than 100%

Environmental Scan & Catalog Results

Note: Categories are not mutually exclusive so numbers add up to more than 100%

Questions & Discussion?

- *Does the data resonate with your experience?*
- *Are there any findings that surprise you?*

*Next Steps & Preparation for
In-Person Meeting
October 12, 2010*

Homework Assignment for Workshop Participants:

- Review excel sheet with background data on domains and sub-domains
- Vote for the **five domain areas** that are 'core' to a public reporting dashboard
- For those five domain areas, name **three sub-domain areas**
- Due October 5th!!!

For questions, contact: Christy Olenik at colenik@qualityforum.org
