

Parking & Metro Info

There is a garage below us in the building but most of the parking spaces are taken up by our tenants. There are a limited number of spots, about 20, they allow for day parking but they are on a first come first serve basis. Your people are more than welcome to check when they arrive to see if any are available. If so the rate is \$9.00 for an hour or \$18.00 for the day. The garage is located off of E Street around the corner from our front entrance on F Street. They would need to drive pass our front door and make a right onto N. Capital Street and then a right onto E Street. There is an alleyway on the right after the Hotel George. They would need to turn into it and go until it dead ends. The parking garage will be on the right. If this garage is full there is another one across E Street which is easily visible when you leave the alley. I have also provided below a list to other Colonial Parking garages in the area:

500 N Capitol St NW
Washington, DC 20001

1 Massachusetts Ave NW
Washington, DC 20001

25 Massachusetts Ave NW
Washington, DC 20001

The loading dock is located next to the garage entrance so just follow the directions above, but instead of turning right into the parking lot just go straight and you will drive straight into the loading dock.

We are located close to the Union Station metro. Below is a map to help show how to get here <http://www.20fstreetcc.com/location> but when exiting Union Station you go right out the main door, cross over 1st street taking Massachusetts pass The Capitol City Brewing Company. At the corner turn left on North Capitol and then turn right onto F Street. You will see the Irish Times Restaurant and we are right next to it.

For those taking taxis please let them know to ask for 20 F Street, NW by Union Station. We have had problems with cab drivers taking people to 20 & F Street which is on the other side of town. Just let me know if you have any additional questions.
