Oregon Urology Institute (OUI) is located in Eugene/Springfield, Oregon. Providing advanced, progressive care is a hallmark of OUI. OUI cares for adults and children living with nearly all urology conditions. OUI also participates in research specific to urology, and supports their patients with the assistance of a patient liaison and support groups for patients with certain urological conditions. OUI also supports advancement of urology care in the community, an example being the Prost8K run on Father's Day each year.

Better options. Better care. It's how we help you feel better and get back to your life faster.

What We Do

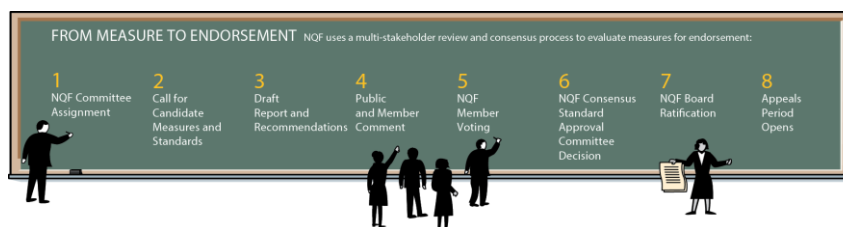

NQF achieves its missions through projects that:

- Set standards by endorsing measures through the Consensus Development Process (CDP).
- Recommend measures for use in payment and public reporting programs, such as Medicaid and Medicare programs.
- Accelerate quality improvement priorities.
- Advance electronic measurement.
- Provide information and tools to help healthcare decision-makers.

What We Do: Set Standards
