Setting the Context: Partnership for Patients & NPP

Who is the National Priorities Partnership?

- Convened by the NQF – viewed as objective, neutral and experienced in building consensus
- 51 leaders across every key health and healthcare sector
 - Consumers
 - Purchasers
 - Quality alliances
 - Health professionals/providers
 - State-based associations
 - Community collaboratives & regional alliances
 - Accreditation/certification groups
 - Health plans
 - Industry
 - Federal agencies (AHRQ, CDC, CMS, FDA, HRSA, NIH, OMH, SAMHSA, VA)
- Co-Chairs
 - Helen Darling, National Business Group on Health

Context for NPP's role in 2012

Consultative Role to HHS

- NPP's ongoing role in providing input to HHS on the National Quality Strategy

Action Catalyst Role

- NPP's role in catalyzing and supporting action on national priorities and goals
- NPP's ongoing support for the Partnership for Patients Initiative

Consultative Role to HHS

NPP Input on and Support of HHS's National Quality Strategy

NPP INPUT ON HHS'S NATIONAL PRIORITIES: Patient Safety

Goals:

- Reduce preventable hospital admissions and readmissions*
- Reduce the occurrence of adverse healthcare associated conditions*
- Reduce harm from inappropriate or unnecessary care

Measure Concepts:

- Hospital admissions for ambulatory-sensitive conditions
- All-cause hospital readmission index*
- All-cause healthcare-associated conditions*
- Inappropriate medication use and polypharmacy
- Inappropriate maternity care
- Unnecessary imaging

*Aligned with HHS's Partnership for Patients initiative. Healthcare-associated conditions include adverse drug events, catheter-associated urinary tract infections, central line blood stream infections, injuries from falls and immobility, obstetrical adverse events, pressure ulcers, surgical site infections, venous thromboembolism, and ventilator-associated pneumonia.

Partnership for Patients **Goals**

- **Keep patients from getting injured or sicker.** By the end of 2013, preventable hospital-acquired conditions would **decrease by 40%** compared to 2010.
- **Help patients heal without complication.** By the end of 2013, preventable complications during a transition from one care setting to another would be decreased so that all hospital readmissions would be **reduced by 20%** compared to 2010.

Partnership for Patients **Ten Areas of Focus**

- Catheter-associated urinary tract infections (CAUTI)
- Central line-associated blood stream infections (CLABSI)
- Injuries from falls and immobility
- Adverse drug events
- Obstetrical adverse events
- Pressure ulcers
- Surgical site infections (SSI)
- Venous thromboembolism
- Ventilator-associated pneumonia (VAP)
- 30 day readmissions

Action Catalyst Role

NPP's Efforts in Catalyzing Action and Supporting Change

NPP formed two Action Teams for projects that:

- Support National Quality Strategy priority and goal areas for which the potential for improvement is great and which could yield significant results in terms of health, quality, safety, and affordability;
- Have strong NPP champions that—working individually or collaboratively with each other and with other critical partners—could collectively have a significant impact; and
- Reinforce work that NPP Partners have historically embraced.

NPP 2012 Action Team Project Portfolio

Maternity Action Team:
Improving quality and safety
for mothers and babies by
reducing elective deliveries

(Re)Admissions Action Team:
Reducing preventable
admissions and readmissions
across the continuum of care

Partnership for Patient-NPP Patient Safety Webinar Series

- 9,600 participants over 11 webinars
- 45 expert speakers including frontline providers across multiple disciplines
- Broad geographic representation
- 94% of participants gained new knowledge from the webinar
- 89% of participants would be able to implement something new as a result of what they learned

Commitment to Collective Action

- An “Action Registry” has been compiled so that meeting participants can identify opportunities for collaboration and collective action
- Nearly 180 commitments and actions to advance the aims of the PFP have been received to date from 60 organizations
- Opportunities for alignment include:
 - Collaborating around value-based practices
 - Spreading innovative and evidence-based practices
 - Collaboratives to reduce HACs

Today's Meeting Objectives

- Celebrate and update progress of commitments made at previous meetings; identify solutions, resources, and networks to maintain momentum, and share strategies for overcoming barriers
- Learn about public and private sector efforts underway in support of the National Quality strategy, moving towards execution and action
- Take coordinated action steps to accelerate implementation of the National Quality Strategy, specifically targeting Partnership for Patients goal areas

Commitment to Action

- Federal partners commitments to action
- Private-sector partners commitments to action
- Collective action through affinity groups
